

Understanding Pedestrian Crashes

Duane Burtt, Principal Policy Advisor
Metropolitan Transport Forum,
November 2021

Study details

- Led by Jennie Oxley and Steve O'Hern at MUARC
- Funded by TAC Community Road Safety Grant
- Literature review
- Data analysis (ten years):
 - Police/TAC data (CrashStats with more detail)
 - Hospital data – admissions and ED presentations
 - National cause of death data

Literature review

- Speed
- Intoxicated pedestrians (possibly 30-45% of fatalities)
- Distracted pedestrians
- Driver behaviour
- Vehicle design

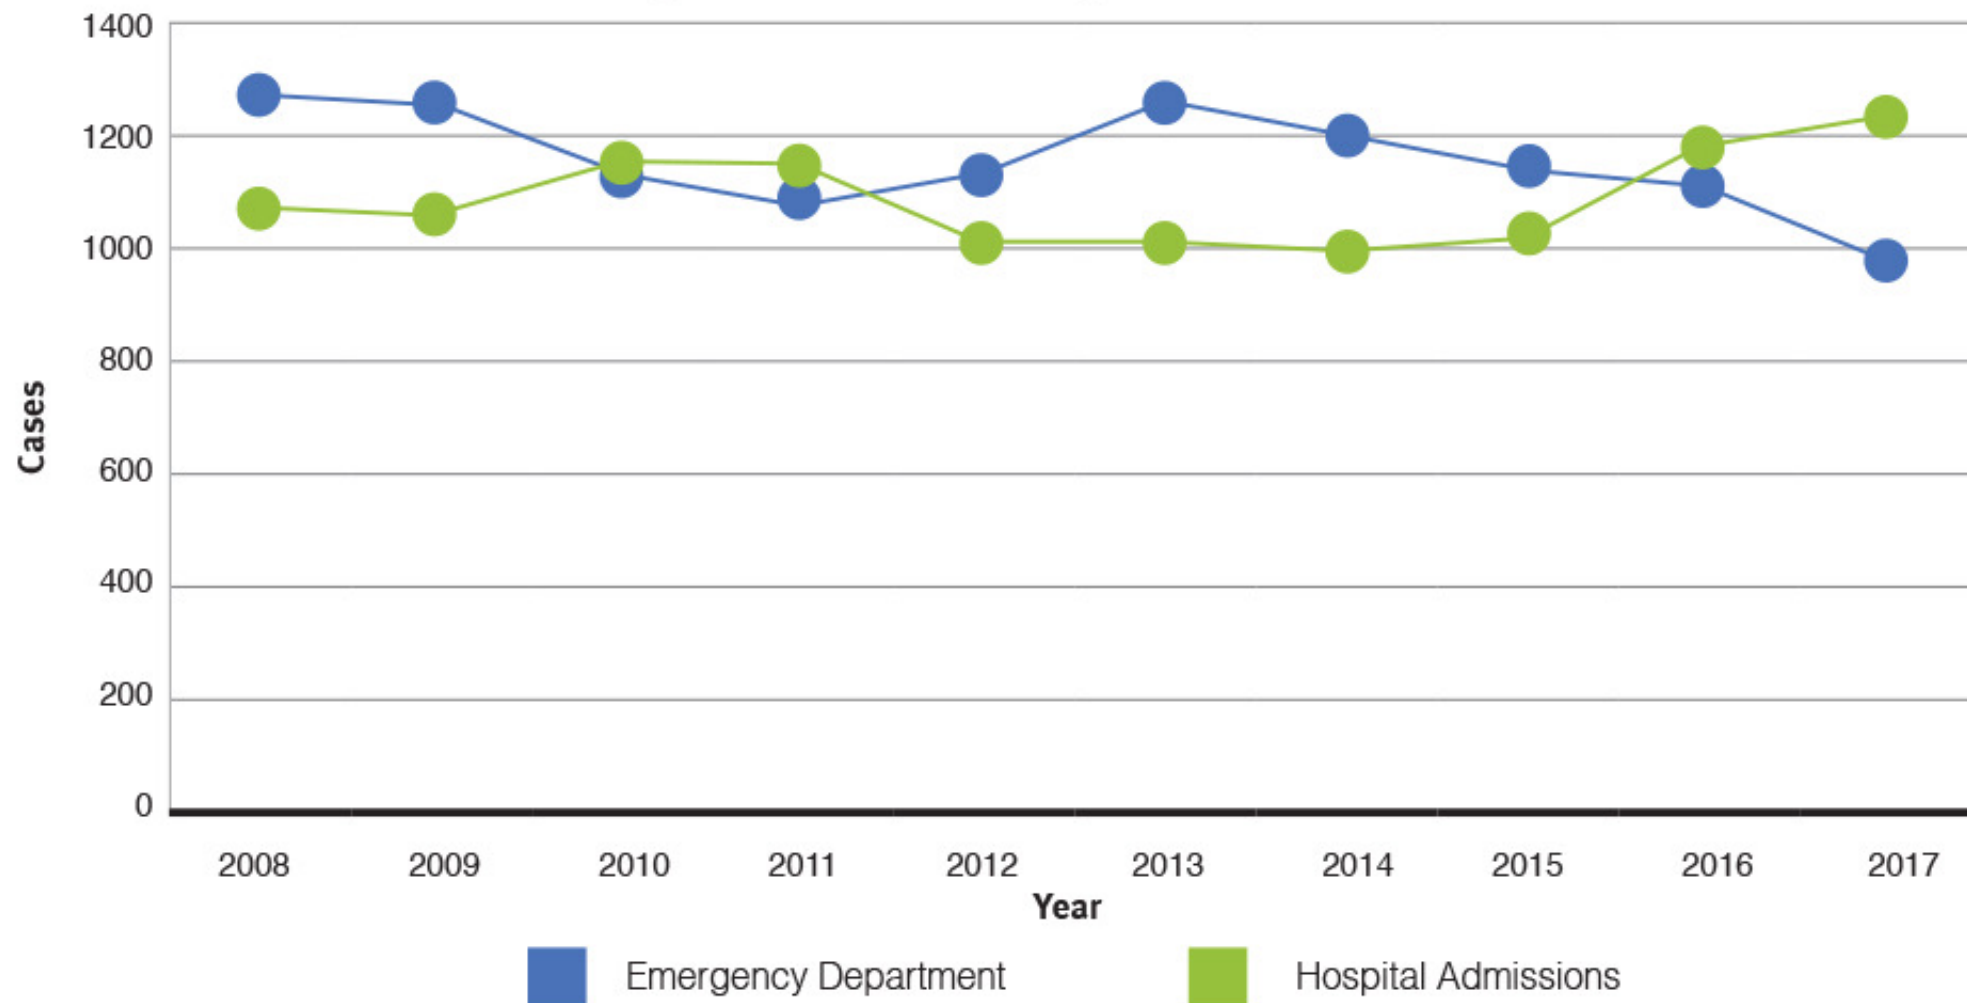

Crash data suggests crashes are declining, BUT...

Figure 1: Reported pedestrian crashes (VPARS 2009-2018)

PEDESTRIAN HOSPITAL PRESENTATIONS (2008-2017) – VICTORIA

<https://www.victoriawalks.org.au/pedestrian-crashes>

Little info on crash circumstances in data

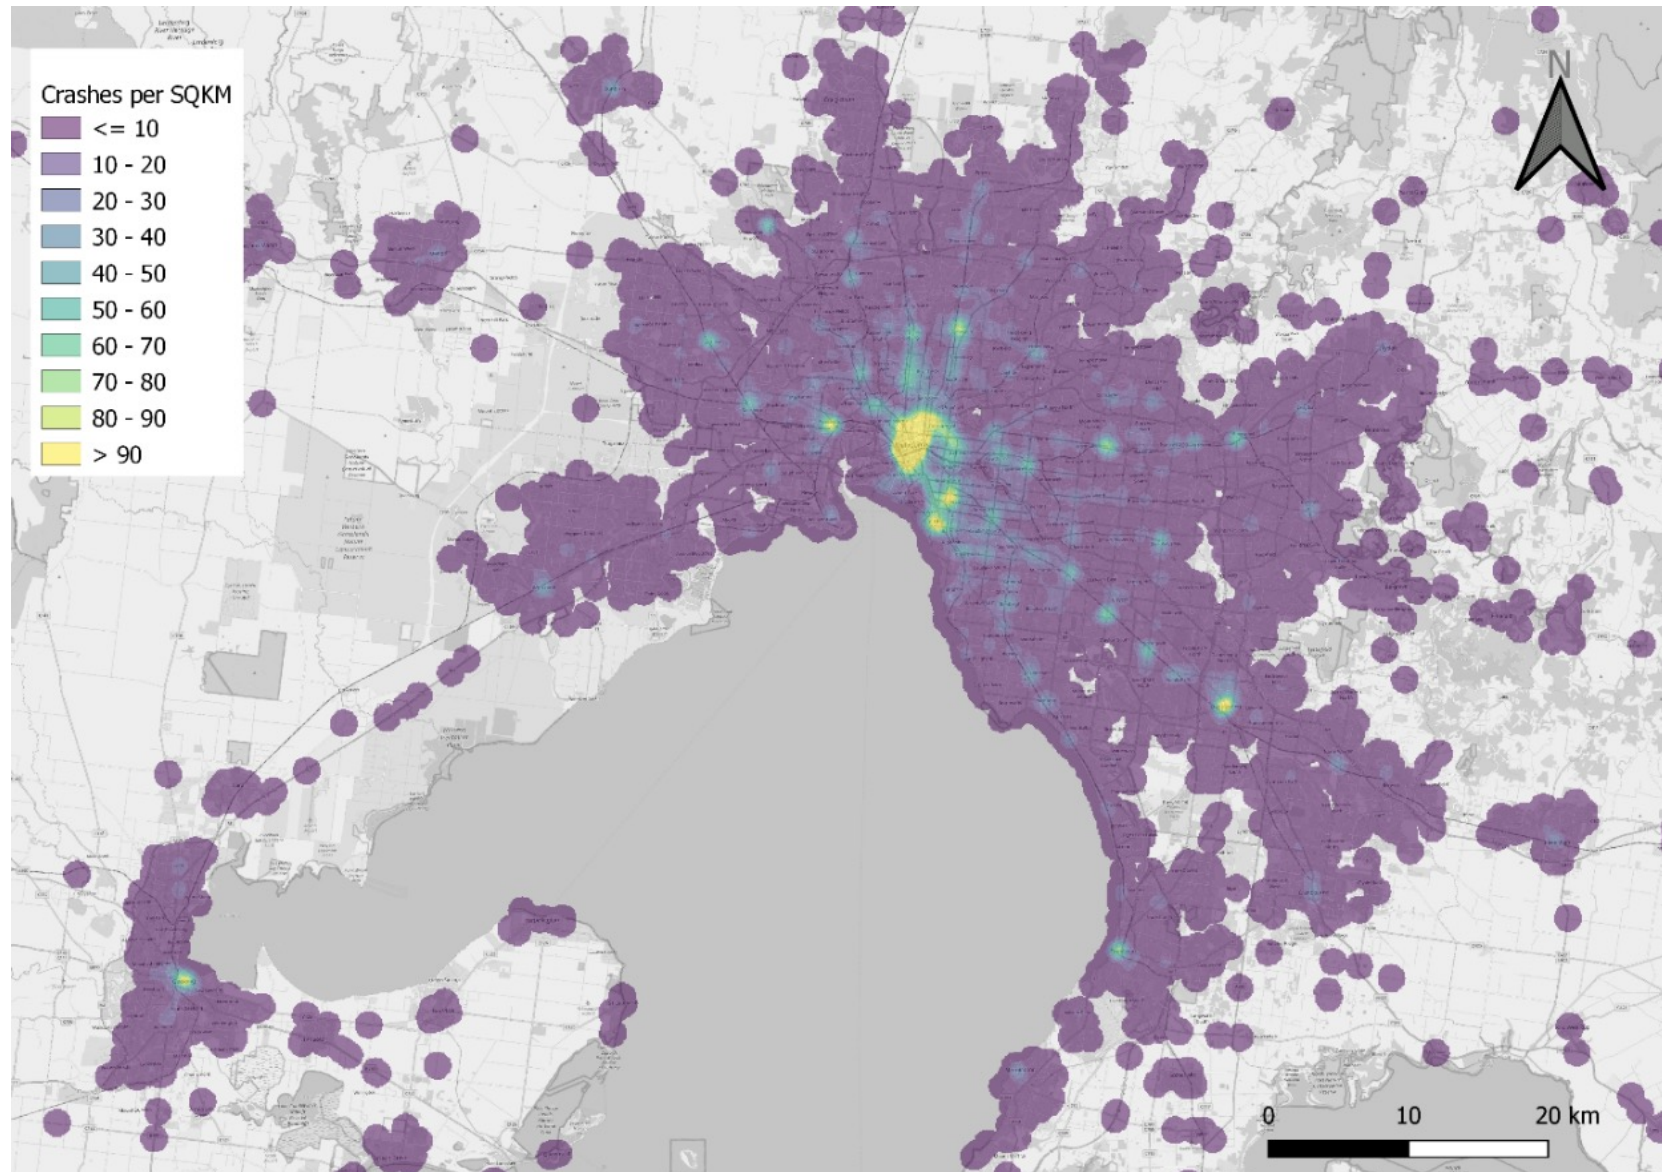

Crash Details		Frequency (n)	Percent (%)
Definition for Coding Accidents (DCA)	Nearside (100)	5,148	34.1
	Far side (102)	3,306	21.9
	Other pedestrian (109)	2,984	19.8
	Emerging (101)	827	5.5
	Driveway (107)	784	5.2
	Playing, working, lying, standing on carriageway (103)	708	4.7
	On median/ footpath (106)	420	2.8
	Struck while boarding or alighting a vehicle (108)	409	2.7
	Walking with traffic (104)	343	2.3
	Facing traffic (105)	163	1.1

Little info on crash circumstances in data

Vehicle movement	Going Straight Ahead	6,563	43.5
	Turn Right	2,364	15.7
	Turn Left	1,276	8.5
	Reversing	1,012	6.7
	Parking - into / Out	338	2.2
	Leaving a Driveway	316	2.1
	Other/unknown	3,223	21.3

Where?

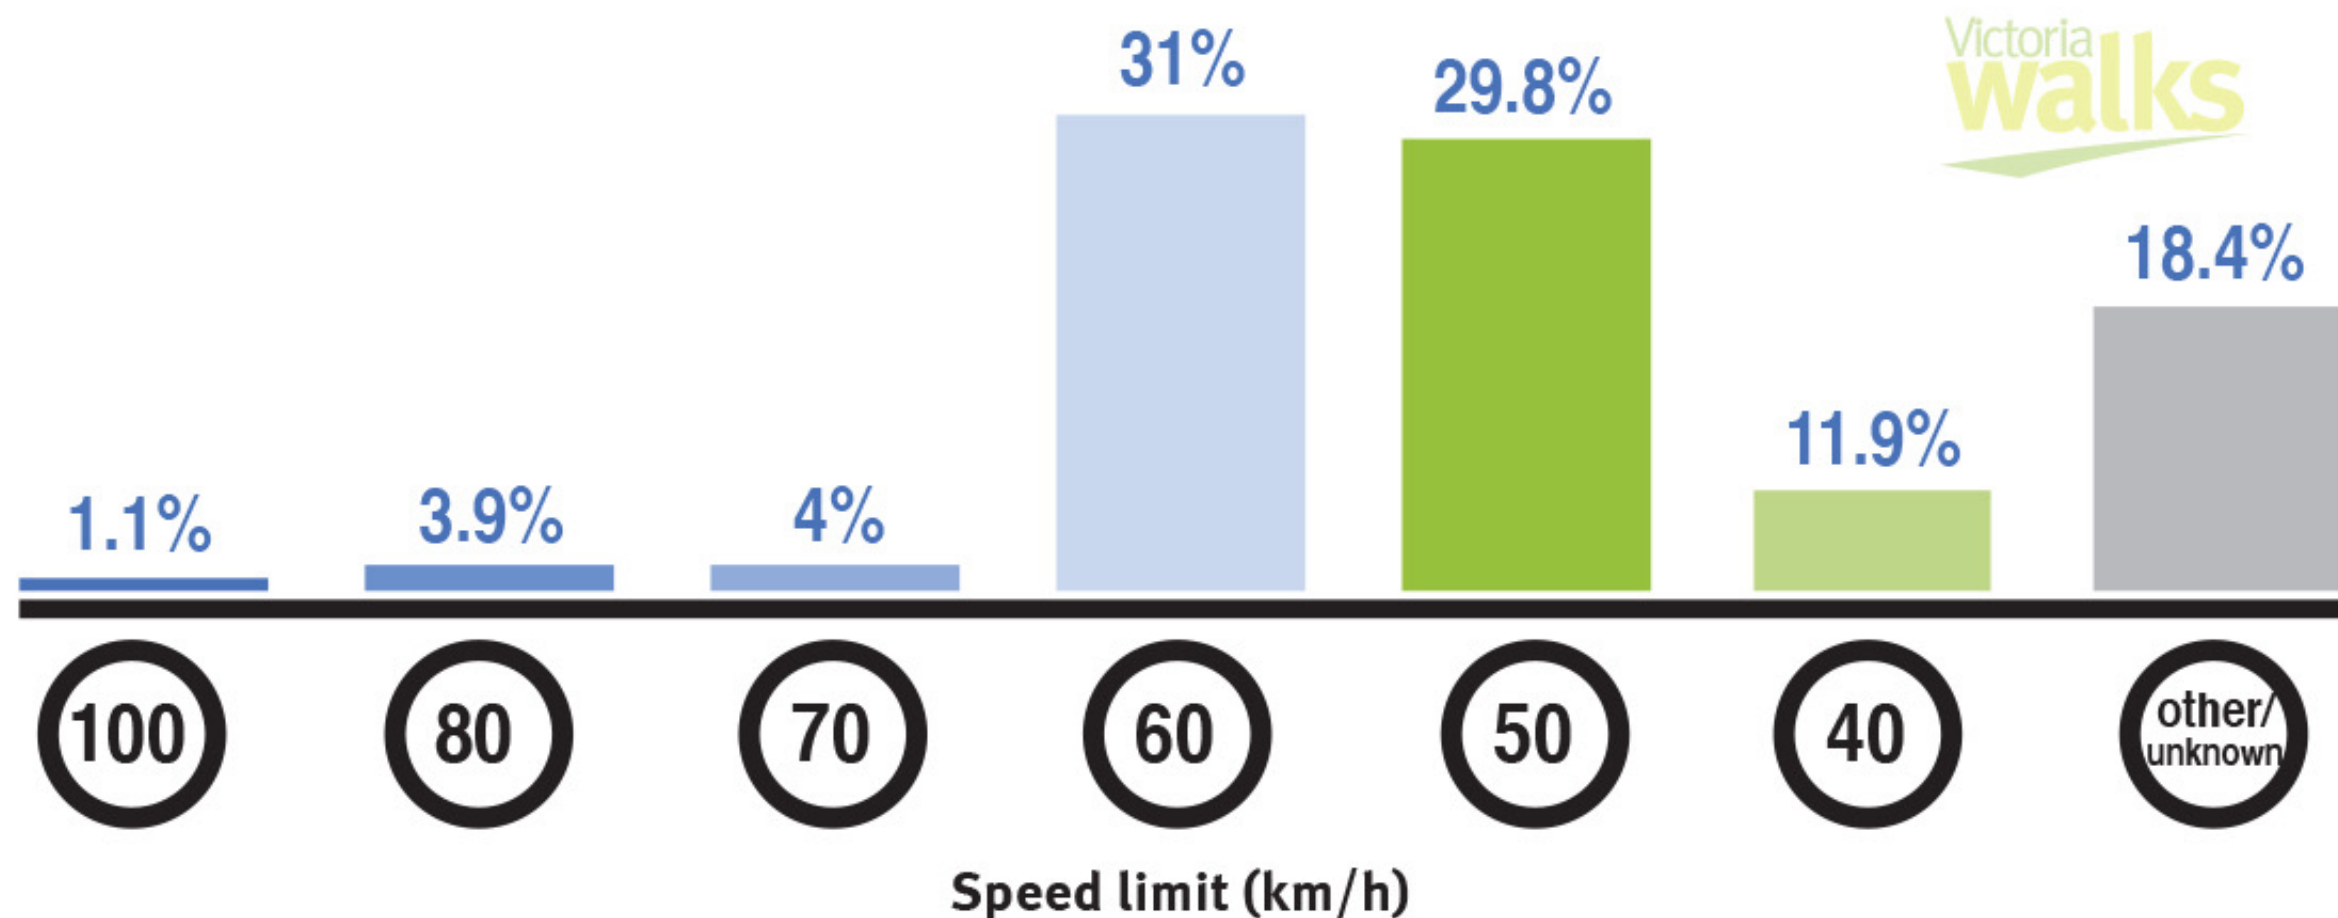

- Areas with lots of pedestrians:
 - CBD and inner suburbs
 - Activity centres
 - Around railway stations
- Major intersections and arterial roads

Council areas

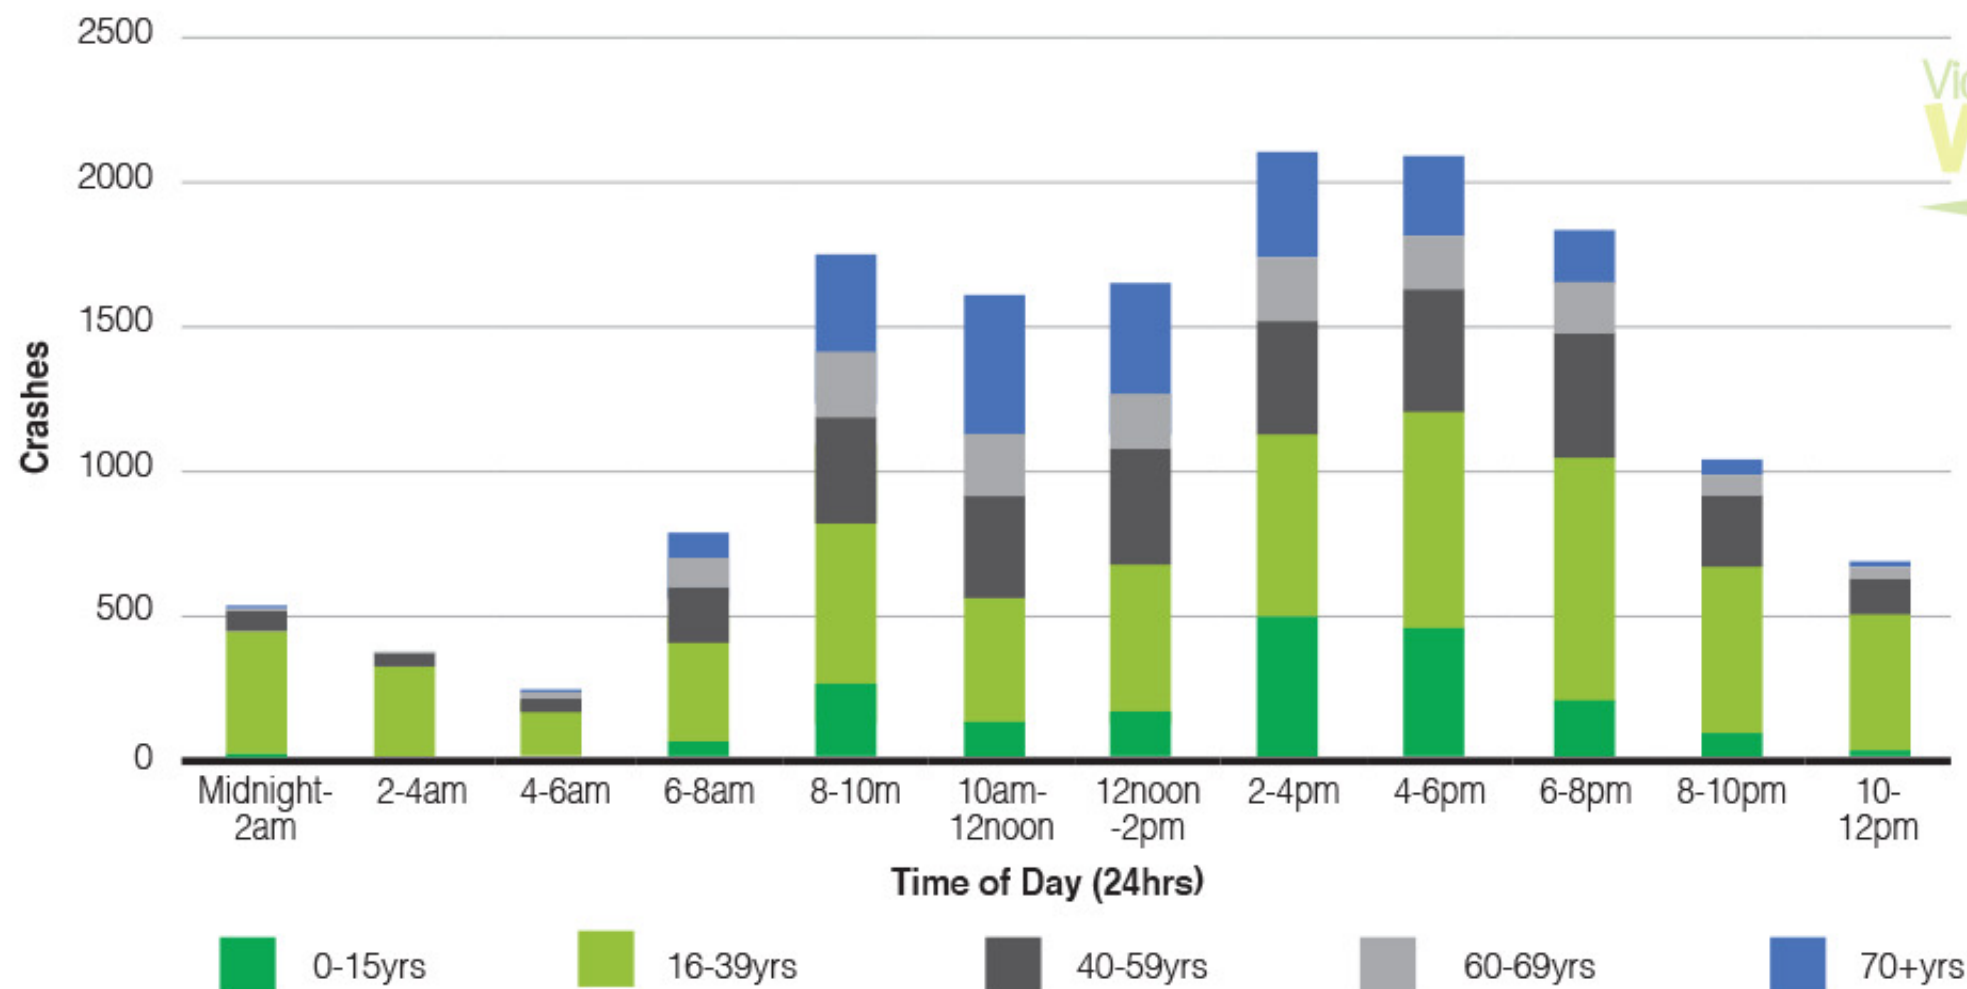

Local Government Area		Frequency (n)	Percent (%)
Metropolitan Melbourne	Melbourne	1,639	10.9
	Moreland	626	4.1
	Boroondara	568	3.8
	Dandenong	556	3.7
	Yarra	555	3.7
	Darebin	528	3.5
	Stonnington	522	3.5
	Glen Eira	512	3.4
	Monash	501	3.3
	Port Phillip	482	3.2
Regional Victoria	Geelong	561	3.7
	Ballarat	238	1.6
	Bendigo	208	1.4
	Latrobe	154	1.0
	Shepparton	126	0.8

SPEED LIMITS WHERE PEDESTRIAN CRASHES OCCUR (2009-2018) – VICTORIA

Recommendations

Recommendations under:

- Safer road users
- Safer vehicles

Safer roads – most relevant to LG:

- Reductions in speed limits, including 30 km/h in priority areas
- Traffic calming
- Safer crossing points and treatments to improve visibility of pedestrians
- **State govt investment to deliver above**

Thankyou
