## Victoria's Big Build – transforming road and rail travel

With our state's population projected to reach 10 million by 2051, Victoria's Big Build is delivering the rail and road projects that will keep Victorians moving in the decades to come.

North East Link, the M80 Ring Road Completion and Eastern Freeway Upgrades will work together with the Suburban Rail Loop, Hurstbridge Line Duplication and the Metro Tunnel, to transform travel in Melbourne's north east – making getting to work, school and health services quicker, safer and easier.
